I wanted to check in and see if you could provide me an update on two priority cases we're trying to get out of the
backlog: and P-18-0351 . The last NCMB heard from RAD on these, they were with you for QA/QC. For
specifically, NCMB had initially provided this case to RAD in September of 2019, and had reached out in
mid-July for an update but had not heard back.
Would you be able to provide us a timeline for when you expect these two cases to be cleared RAD review? I know you
are absolutely swamped, but if there's any way to move these to the top of the queue I would really appreciate it. Thank
you so much for your help!
